ALL ADS ARE FULL COLOR. Artwork must be submitted at specified dimensions at 300 dpi, CMYK for best color reproduction. It is the responsibility of the advertiser to ensure appropriate license is in place for all photos and graphics utilized in the advertisement. Content Guidelines:

All advertisements must honor and respect the **Gypsy Vanner Horse Society** and the **Gypsy Vanner Horse**. Within the publication, GVHS registered horses will be referred to as Gypsy Vanner Horse, Gypsy Vanner, Vanner Horse, or simply Vanners. Where the farm name or logo refers generically to Gypsies, Gypsy Horses or Gypsy Cobs, we ask that advertisements also include prominent reference to the farm’s support of the GVHS and/or dedication to the Gypsy Vanner Horse breed. All horses named/featured in advertisements must be GVHS Registered. Advertisements must not contain information regarding other *gypsy horse* Associations/Registries. The GVHS reserves the right to reject or to edit submissions to support these guidelines.

2. A listing in the *Breeder's Directory* includes a \$50 discount for any size ad in *The Vanner*
3. Each full page ad includes one (1) complimentary *Stallion Directory* listing.
4. **Bleed, trim and safe dimensions for FULL PAGE AD Design:** Except for front inside cover and 2-page spreads, all full-page ads are placed on the right hand side of the magazine. When designing your ads, please consider the following:

Trim size (in table above) represents the final dimensions of your ad.

However, *artwork and photographs must extend beyond the trim size (see "bleed" below)* to avoid narrow slivers of white at the edge of your ad once it is cut to size.

Bleed (1/8" all outside edges) is the portion of your design that extends past the trim size. Bleed is cut off when the publication is trimmed to the final size. Its purpose is to make sure your design

or image reaches the very edge of the page without leaving any unsightly white edges.

Safe margin is a margin inside the trim (3/8" from outside edges/ 1/2-5/8" from gutter). The resultant safe page area is a smaller dimension than your final ad size and this is where you should place your most important information and graphics of your design. The safe area also accounts for the gutter of the publication and how easy it will be to see content in the center of a magazine spread.
